ASSIGNMENT 3

Textbook Assignment: "Drawing," chapter 3, pages 3-1 through 3-60.

th	hen you are drawing, what element nat does NOT exist in nature is anipulated?	3-7.	Develops a sense of weight and mass.
1.	Outline Shape Color		1. E 2. F 3. I 4. J
IN ANSWE SELECT FR DESCRIBE	ERING QUESTIONS 3-2 THROUGH 3-9, ROM THE FOLLOWING LIST THE TERM D IN THE QUESTION. ANSWERS MAY BE E THAN ONCE.	3-8.	Helps novice draftsmen draw figures with more realistic proportions. 1. E 2. G
	DRAWING TECHNIQUES		3. H 4. I
B. Conto C. Bas-		3-9.	Develops your ability to give objects depth as well as height and width.
E. Felt 3-2. K			1. E 2. B 3. J 4. D
1. 2. 3. 4	. B . C	3-10.	Inversion contour drawing is a technique that forces you to visually perceive each object from an unfamiliar perspective.
3-3. N	Not looking at the drawing or the		 True False
1.	bject while drawing A	3-11.	Which of the following shapes is NOT a basic drawing element?
4.	2. B 3. C 4. D		 Cone Sphere Cylinder
	Develops coordination of the hand, eye, and brain.		4. Trapezoid
1. 2. 3	. B . D . E	3-12.	Changing any dimension of a cube creates which of the following shapes?
3-5. D	. F Develops your perceptions of urface characteristics and hard		 Hexagon Octagon Rectangle Parallelogram
1	dges B	3-13.	A sphere drawn in an isometric projection appears as what shape?
2 3 4	. E		1. An ellipse with an irregular major axis
	Develops a sense of spatial elationships.		 An ellipse with the minor axis on the horizontal plane Round Oval
1 2 3 4	. E . F		

- What factor determines the size of 3-14. a cone?
 - The diameter of the base
 - The degree of ellipse at the 2. base
 - The radius of the circle at the 3. base
 - The point above or below the base where the lines converge
- 3-15. When you begin a drawing using combinations of basic shapes, which of the following characteristics should be your primary concern?
 - Proportion
 - 2. Placement
 - 3. Color
 - 4. Shape
- When drawing illustrations using combinations of basic shapes, what is the last step in the process? 3-16.
 - Draw in perspective
 - 2. Define basic shapes
 - 3. Add details and shading
 - Transfer the image to paper
- 3-17. Realistic renditions using light, shade, and shadow greatly improve poorly constructed forms.
 - 1. True
 - 2. False
- 3-18. When evaluating an object's contrast using its background or surroundings, what compositional element is determined?
 - Tone 1.
 - 2. Value
 - 3. Color
 - 4. Pattern
- The effects of light, shade, and 3-19. shadow are known by what term?
 - Tone
 - 2. Value
 - 3. Color
 - 4. Pattern
- 3-20. What is the ideal lighting to define the shape of objects by values instead of lines?
 - 1. Low
 - 2. Soft
 - 3. Bright
 - 4. Medium

- 3-21. Which of the following surfaces reflects images of its surroundings?

 - A window pane
 A field of grass
 A computer monitor 3.
 - A sheet of white cardboard
- 3-22. From what direction should you illuminate an object so that it will appear most natural?
 - From the side
 - 2. From below
 - 3. From directly above
 - From above and to one side
- 3-23. To have the most effect on texture, light should strike an object from what direction?
 - Diagonally from above
 - From directly above 2.
 - 3. From the side
 - From below
- 3-24. When beginners draw the basic human figure, they often makes mistakes in which of the following areas?
 - Construction
 - Proportion 2.
 - 3. Solidity
 - All of the above
- 3-25. When drawing the human figure, what technique captures the spontaneity of stance and gesture?
 - Contour
 - 2. Felt contour
 - 3. Blind contour
 - Gesture drawing
- 3-26. The human figure should be drawn using what forms?
 - 1. Cones, cubes, cylinders, and spheres
 - Modified cones, cubes, cylinders, and spheres
 - 3. Circles, straight lines, curves, and rectangles
 - 4. Modified circles, curves, lines, and rectangles
- In composite drawing, which element of figure drawing is the basic or 3-27. first layer?
 - 1. Muscle
 - VeinsBone

 - 4. Skin

- What body part is the standard unit of measure for the human body? 3-28.
 - 1.
 - Leg
 - 2. 3. Head
 - 4. Foot
- 3-29. You should draw the average human figure using how many standard units?

 - 7 1/2 2.
 - 3. 8
 - 8 1/2
- 3-30. How many standard units are recommended for drawing the torso of the average human figure?
 - $\frac{1}{2}$

 - 2. 3. $\frac{5}{2}$ 1/3
 - $\frac{1}{2}$ $\frac{1}{2}$ /3
- 3-31. What part of the human figure is located at the midpoint of height?
 - Navel 1.
 - 2. Elbow
 - 3. Crotch
 - Small of the back
- 3-32. How many standard units indicate the width of a female human figure?
 - 1 1/4 units
 - 2. 1 1/2 units
 - 3. 1 3/4 units
 - 2 units
- As a child grows to maturity, a 3-33. boy's center of gravity shifts from
 (a) what location to (b) what location?
 - 1. (a) Navel
- (b) small of back
- 2. (a) Crotch
- (b) stomach
- 3. (a) Hips
- (b) crotch
- (a) Waist
- (b) navel
- 3-34. During what phase of drawing do the proportions of an illustrated figure change from actual measurement to visual approximation?
 - 1. Evaluation
 - 2. Foreshortening

 - Detail and shading Thumb nail sketching
- What type of joint allows the arm 3-35. to rotate?
 - 1. Hinge
 - 2. Angle
 - Rotation
 - Ball-and-socket

- 3-36. Where is the hinge joint located on a human leg?
 - At the pelvis
 - 2. At the ankle
 - 3. At the knee
 - At the foot
- 3-37. What is the basic shape of the human head?
 - Sphere 1.
 - 2. Square
 - 3. Cûbe
 - Cone

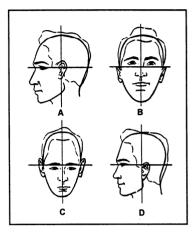

Figure 3A. -Feature positioning.

IN ANSWERING QUESTION 3-38, REFER TO FIGURE 3A.

- 3-38. Which head is drawn with correctly positioned features?
 - Α
 - 2. В
 - 3. C
 - D
- 3-39. To draw the human head at various attitudes and retain its solidarity and correct features placement, what method should you use?
 - Drawing through
 Drawing contour

 - 3. Guidelines
 - 4. Contour

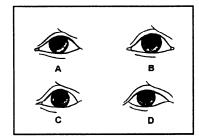

Figure 3B. -Eyelid structures.

IN ANSWERING OUESTION 3-40, REFER TO FIGURE 3B.

- 3-40.Which eye shows correct upper and lower lid structure?

 - 2 . В
 - 3. C
 - D
- 3-41. What causes the distinct highlight in the eye?
 - Light reflection Eye lids
 - 2.
 - Moisture 3.
 - 4. Glasses
- 3-42. Nostril cavities slant in what direction?
 - Horizontally
 - 2. Vertically
 - 3. Outward
 - 4. Inward
- 3-43. What shape is the upper lip?
 - Convex and round 1
 - 2. Flat and angular
 - 3. Round and angular
 - Convex and sloping
- 3-44. It is normal for the lower teeth to show during which of the following activities?
 - 1. Smiling
 - 2. Talking
 - 3. Chewing
 - Laughing
- 3-45. The four major parts of the ear do NOT include which of the following
 - Outer and inner rim
 - 2. Whorl
 - 3. Bowl
 - Lobe

- 3-46. A drawing of which of the following figures requires a solid foundation in light, shadow, and shade?
 - Sitting figure
 - A bodybuilder
 - 3. Sleeping figure
 - A baby
- 3-47. Folds in cloth created by gravity, tension, and action subject the cloth to what changes?
 - Layering
 - Reduction in volume
 - Condensing
 - Increases in volume
- Most clothing is affected by what type of fold? 3-48.
 - 1. Action
 - 2. Gravity
 - 3. Tension
 - 4. Support
- How and where folds appear in clothing is affected by what 3-49. factor?
 - Action
 - 2. Fabric
 - 3. Body shape
 - 4. Garment type
- Why do folds in a shirt worn by a man differ from folds in a blouse 3-50. worn by a woman?
 - The blouse has more points of tension than the shirt
 - The blouse is supported at more
 - points than the shirt The garments are made of different materials
 - The garments are different sizes
- 3-51. Where do most folds in a sleeve occur?
 - 1. At the cuff

 - 2. At the biceps3. On the upper On the upper side of the arm at the elbow
 - 4. On the upper side of the arm at the wrist
- 3-52. Folds formed by tension are located at junctions where the human body moves such as at the shoulder-arm junction, leg-torso junction, waist, elbow, and knee.
 - 1. True
 - 2. False

- In what way could seams in the legs of a pair of trousers affect a 3-53. tension fold?
 - By increasing the folds

 - By creating action folds By increasing gravity folds
 - By terminating folds
- 3-54. What figure attribute communicates an overall mood or emotional message in a drawing?
 - 1. Height
 - 2. Posture
 - 3. Clothing
 - Muscularity 4.
- What picture element keeps the 3-55. viewer in the picture?
 - 1. Color
 - 2. Borders
 - 3. Figures
 - 4. Directional lines
- 3-56. To imply tension in a drawing, how should you place figures?
 - Facing each other

 - Facing the same direction
 Facing away from each other
 - Facing a third party

- 3-57. What picture element may change the apparent setting of a picture without changing the main characters?
 - Skyline
 - 2. Horizon line
 - 3. Background
 - Foreground 4.
- 3-58. What picture element should you use to proportionately scale all other items in the picture?
 - Trees 1.
 - 2. Buildings
 - 3. Machinery
 - Main figure
- 3-59. When creating a crowd scene, what technique should you use to avoid a monotonous repetition of forms and faces?
 - Show individual variations in emotions
 - 2. Draw each figure in the crowd in great detail
 - Show pockets of emotions throughout the crowd
 - Have the crowd display a unified mood or feeling
